

Pura®

TEST WINNER

MEASURING ACCURACY

for $<75\text{mg/dL}$ in technical comparison tests^{1,2}

In the test: 5 established blood glucose meters¹

¹ 5/2010, Poster DDG Stuttgart, A-274-0007-00399

² ISO-Test IDT Ulm, DDG 2009

High-precision blood glucose measurement, simple operation: I can rely on Pura.

- Extremely high measuring accuracy
- Autocoding and autostart
- Hygienic testing strip change without blood contact

swissdesign

More freedom. More confidence. With mylife™.

YPSOMED
SELF-CARE SOLUTIONS

mylife™ Pura®

Simple, easy, gentle

Simple

Ease of application and reliable measurements make mylife™ Pura® the ideal blood glucose meter.

Accurate

Thanks to the latest technology, mylife™ Pura® is one of the most accurate blood glucose meters on the market, as technical comparison tests with established blood glucose meters confirm.

Gentle

The mylife™ Softlance lancing device provides the latest comfort in blood withdrawal.

¹ 5/2010, Poster DDG Stuttgart, A-274-0007-00399

² ISO-Studie IDT Ulm, DDG 2009

mylife™ Pura®
Simplicity itself

Autocoding

Test strips take over the coding.

Autostart

Turn on by clicking the test strip.

Simple strip removal

Simple and clean without blood contact.

Extra large illuminated display

Comfortable readings at any time of the day and night.

Extra large data storage device

Automatic storage of the last 500 measurements through average calculations (1, 7, 14, 30, 90 days) – USB port for data transfer on the computer.

 **mylife™ Pura®**

Gentle, protective blood withdrawal

Variable injection depths

Seven injection depths for individual adjustment and effective injection.

Hygienic lancet disposal

Without handling.

Special injury protection

To avoid injection injuries through accidental triggers when changing lancets.

Alternative test strips

AST attachment enables blood test samples at alternative test sites.

Which form of therapy do you use?

- Oral diabetes therapy (tablets)
- Insulin therapy with
 - 1 – 3 injections per day (CT)
If yes, which insulin pen do you use?

- 4 plus injections per day (ICT)
If yes, which insulin pen do you use?

- Insulin pump therapy (CSII)
If yes, which insulin pump do you use?

Yes, I would like the free starter pack!

Starter pack:

- 1 mylife™ Pura®
- 10 lancets
- 1 lancet device
- 10 Test strips

Please tick the relevant measuring unit:

- mylife™ Pura® mg/dL
- mylife™ Pura® mmol/L

Consent to be contacted by telephone or E-mail

I would like to receive further information on diabetes and your products. For this purpose, I consent to the recording, storing and processing of my details, in particular health-related information on my therapy, by Ypsomed AG and its associated group companies.

I also agree that Ypsomed and its associated group companies may send me information

by telephone and by E-mail

on diabetes and new diabetes products. (Please tick the fields. Thank you)

I can at any time withdraw my consent for Ypsomed AG to continue to use my details for the above-mentioned purposes without giving any reason.
